Living Hope School

We are glad to inform you that our Living Hope School re opened for the academic year 2018 – 19 from the 11th of June 2018. We have received 34new admissions for this year. Praise God for the wonderful work being carried out amongst these Nandanavanam slum children. They are deprived of right for education due to their poverty and ignorance of parents towards the importance of educating the children. We thank God for the privilege He has given us to serve these poor children by giving them free education.

Hands of Dorcas tailoring institute has successfully completed third batch and we have already received applications for the fourth batch. Pray that the project will continue to help many poor and downtrodden women and make them self sustain.

Prayer Points:

- Pray for Ps. Rajesh's church land in Rajeev nagar, Mancherial. The land has been donated to church but the local non Christian residents raising objection towards constructing the Church building. Pray that the Lord will intervene and change the hearts of these people and allow him to construct Church Building.
- Pray for our Living Word Theological College campus premise. As you are aware the three years agreement with the owners of the building is expired and the owner is more willing to sell the premises. Pray that God would provide the finances for us to acquire the building and run Bible College and IATNJM India office in the same premises.
