

## Arrival of Container in Sierra Leone

We are thanking God for the safe arrival of the container, and all its contents in Sierra Leone, these have been safely unloaded ready by Rev Michael and Alice (pictured above) and team. All the gifts sent will make such a difference to people living in great poverty. We are also very thankful that the new Government Goods and Services Tax, which looked like it would be a huge additional bill was greatly reduced!

Pictured below is the start of food distribution to very poor families. Since the Ebola crisis, food prices have rocketed in Sierra Leone as rice production in the country has almost completely stopped. Rice is central to peoples' diets in Sierra Leone and most is now imported from China and for sale at prices far to high for many people to afford.

This food will make a great difference to families being able to eat every day - and their children growing up healthy.

Thank you again to everyone who donated items, gave financially for transport and prayed for the safe arrival of the container.
