

# New Hope School, Sierra Leone

**New Hope Primary School serves Thombo Bana and nearby villages, Lungi, Sierra Leone.**

The school is free for the children to attend, the building, teachers all materials and school lunch, are funded by International Aid Trust. Children, whose families wouldn't be able to afford school fees, are getting a good education. New Hope School has been rated 2<sup>nd</sup> out of all the schools in the district, for the end of primary exams.

The school feeding program is for many pupils the only proper meal they eat in a day, some of the poorest families in this area only eat a meal at home every second or third day.

Pupils love attending New Hope School! As well as getting an education that will help them break out of the cycle of poverty,

they are learning about Jesus' love for them, through lessons, assemblies and the example and care of their dedicated teachers.

**Please pray for the children and teachers of New Hope School. If you are able to donate: £6.00 could pay for 1 child from the Thombo Bana area to attend school for a month and get a nutritious school lunch each day.**
