

UKRAINE EMERGENCY APPEAL

Special Appeal: Mine Detection Equipment

This is a request from front line Ukrainian colonels, who we work closely with, in order to be able to get vital aid to villages within danger zones. As their troops retake land that has been occupied, they are coming across vast numbers of anti-personnel and vehicle mines that have been sown in a completely indiscriminate way, soldiers and civilians, including children, are being killed or maimed every day.

HOW YOU CAN HELP:

PRAY: Please pray with us for the safety of the troops and residents in affected areas and for the rehabilitation of those who have been injured.

DONATE: We are able to support through the purchase of mine detecting equipment, produced by a specialist company in Kiev (pictured right), these have been made available to us for only £551 each. If you would like donate towards this please visit the donate page on our website and if donating by BACS please use the reference 'Ukraine Mine'.

DONATE EQUIPMENT: If you have any working hand held metal detecting equipment, including 'pin pointers' that you would like to donate, please contact the office, phone 01772 611000 or email office@internationalaidtrust.org.uk

THANK YOU FOR YOUR SUPPORT
